Split Check Total: $14.00

| Equal Split | | Manual Split |

Equal split
take all items in the check being split and divide them by # of check it will be split into.

Example: Chicken cheese pizza $9 divided by 2 = $4.50/check
For quantity do the per check amount divided by total amount. So $4.50/$9

☑ | Check 006 - Sami | | $6.00 |

☑ | Check 007 - Faisal | | $8.00 |

Split Check Total: **$14.00**

| Equal Split | | Manual Split |

Manual split quantity calculation is split check amount divided by split check total.

example for check 006 quantity will be $6/$14 = 0.42

For Manual split - show text "Split - Check ###" along with quantity and split amount and then list the items from the original check at the bottom (no need to include quantity or amounts for the individual items)
